

Type 33+ Scotch Vinyl Plastic (Black)

The Scotch 33+ is a high quality flame retardant, all weather electrical insulating tape designed to perform in a continuous temperature environment up to 105°C.

Applications include primary electrical insulation (especially in moisture and solvent vapour areas) for all wire and cable joints up to 600V. The tape forms a protective jacket giving excellent abrasion resistance for high voltage cable joints and termination. The tape conforms to **BS3924** and **IEC 454**.
