## 'D' Range Face Plates & Panels

### Plastic

The face plates are manufactured from white polyamide to **UL94V-0**, and supplied with mounting screws to fit standard 86 86 BS mounting boxes. Face plates are also available pre-loaded with tin plated 25 way 'D' sockets, offering better EMI/RFI shielding and faster assembly.

The soft polyamide material makes machining simple when using the blank plate for custom applications. Each face plate has four 0.2" LED punchout holes which can be wired to indicate I/O line status.

Face Plate	Material	LED punchouts	Screws (two)	25 Way 'D' Socket	Contact rating	Working voltage	Mating cycles	Housing	Contacts
	White polyamide, <b>UL94V-0</b>	4 0.2" dia.	M3.5 30		5A	125V ac	50	Steel, tin plating	Turned copper alloy, gold plating

Double 'D' 25 way	.152-583					
<b>Blank Face Plate</b>	.152-584					

### Connector and Pattress Box – 25 Way

A 25 way standard 'D' socket mounted on a single gang face plate and supplied complete with a wall mounting surface box. The wall plate has a knockout to accommodate a T1 3/4" LED to give a visual indication of line or terminal status. Without the wall box fitted, the plate may be mounted in a plaster depth galvanised box.

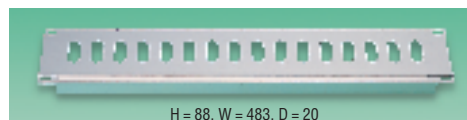

Ideal for all applications where RS232C computer peripherals, ie, VDU's, Printers, etc, are located within office areas.

146-295 - Supplied complete with 25 way socket 86 86
