### Gauge

- Dual calibrated dials, available for direct mounting
- Choice of pressure ranges
- Conform to **BS 1780: Part 2, Industrial Class 2**
- Ideal for use with Excelon 72 and 74 Series air preparation units
- 1/8" BSP port

## Olympian Plus 64 Series

### Olympian Plus 64 Series

Olympian Plus - 54 Series

- Quick-connect yoke system
- Rapid installation / removal
- Prismatic sight glass
- Porting block-mounted pressure switch
- Soft start / dump valve

Olympian Plus is the new generation FRL system from Norgren, world leaders in air line equipment. The unique Olympian plug-in design has been updated to set new standards for ease of use and system flexibility. The Olympian Plus range is a modular FRL system covering the range of BSP filters, filter / regulators, lubricators, regulators and associated accessories.

pne503

### Olympian Soft Start/Dump Valve

- Olympian Plus plug in design
- Controlled increase of downstream pressure on start up
- Assists machine designers in complying with the European Machinery Directive

Medium Gauge Port  
Maximum flow with 6.3 bar inlet pressure and a pressure drop of 0.5 bar  
Charge time for 2 litres of down stream volume and 6.3 bar inlet pressure

Compressed air G3/8"  
57dm<sup>3</sup>/s10 bar  
(P1 to P2 = Cv 4.2  
(P2 to P3 = Cv 5.6)  
Minimum time - 0.2 seconds  
Maximum time - 76 seconds
