HAT86

## \& 1752 Tools - Hand \& Workholding

## Torque Closure Meters (TCM)

- Dual SI Metric and Imperial scale
- Maximum reading memory system
- Accuracy of $\pm 2 \%$ of reading

Works in both clockwise and anti-clockwise directions

- Clamping system jaws adjustable to 3 settings
- Maximum grip capacity of 105 mm Ø round or square
- In accordance with the requirements of ISO 6789:1992
- Supplied with a certificate of calibration

The TCM is a versatile instrument specially designed to accurately measure and check the tightness of screw-on caps on containers such as bottles, jars and cans. Using the TCM to check that correct torque is applied to caps ensures that leakage and product deterioration are kept to a minimum, allows safe storage and transportation and provides the end user with a quality product that is well sealed yet easy to open.

Hand Hacksaw Frame
BAHCO

Strong and very stable frame

- Allows very high blade tension for accurate and exact kerfs
- Spring-tensioned blade-loading mechanism, strong rectangular back section for 10 blade storage, with an easy-tohandle retaining screw
- Alternative $55^{\circ}$ blade mounting for flush cutting

12" bi-metal blade, 24 TPI
