Masonry, General Purpose

A range of top quality UK manufactured general purpose chisels made from high carbon steel.

Channelling Tool. A wide blade chisel for cutting channels in plaster, breeze block, cement rendering and brick. The head is domed and hardened to stop chipping and spreading. The blade is 50mm wide, 5mm thick and hardened to give a strong durable tool.

Fluted Plugging Chisel. Primarily designed to remove mortar and cement between brickwork but equally suitable for finishing channels in plaster, cement rendering, breeze block and brick. The blade is grooved to assist waste removal from narrow cuts.

Brick Bolster. Fully hardened and sharpened blade, fitted with a hand guard.

Masonry Chisels. 4 General purpose chisels from 152mm to 458mm long for building work. Fully hardened for long life.
