

Anti-Static Cloths

H = 300, W = 300

- Reduces dust attraction
- Anti-static chemical impregnated
- Re-activated with water
- 10m² coverage per cloth per application
- Unique green stripes indicate when cloth requires re-activating
- Supplied in boxes of 50

Static Dissipative Floor Polish

- Non-hazardous water based
- Easy to apply, low VOC (volatile organic compounds)
- Zero tribo-generation
- Yields approximately 50m² per litre
- Durable non-slip
- To be used in conjunction with ESD footwear
- Long lasting, low maintenance
- R_S 10⁷ to 10⁹Ω
- Use in conjunction with C903 cleaner, Order Code 302-6668

Static dissipative floor polish can enhance the features of an existing ESD floor or make a non-ESD floor static dissipative, without the cost of replacing the entire floor. It is a free flowing liquid emulsion which can be easily applied to any hard surfaces or sealed floors i.e. vinyl, concrete, linoleum or ceramic tiles. Complies with **BS EN 100 015/1** and **BS IEC 61340-5-1**.

Static Dissipative Floor Cleaner

- Low VOC
- Low Foam, Zinc free
- Neutral pH – needs no rinsing, non-alkaline
- Static dissipative 10⁷ to 10⁹ Ω
- Zero tribo-generation
- Non streaking
- 10:1 concentrate
- Dries in 1 hour
- High traffic areas – apply once a week
- Light traffic areas – apply 2-3 times a month

A static dissipative, low VOC, floor cleaner to be used in conjunction with Vermasol floor polish Order Code **302-6656**. Designed to remove dirt and scuff marks from a floor treated with

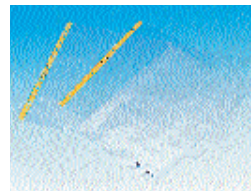

Vermasol polish. Supplied as a 10:1 concentrate this product is also clean room compatible.

Office Supplies

Static Dissipative Document Wallets and Folders

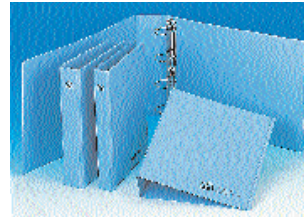

- Will not generate static charge
- Durable, anti-static LDPE construction
- Non-stick – ideal for photocopying
- A4 and A3 sizes
- Printed with ESD logo
- Universal fit, 11 hole spine (wallets only)
- Folders open on two sides
- R_S <10⁹Ω, T₁₀₀₀ <2s
- Conform with **IEC 61340-5-1**
