

Tempflex – 5140

LOCTITE

- Non-corrosive sealant adhesive paste
- Designed for use on corrosive sensitive substrates
- 5140 is a self levelling product for potting and encapsulating electronic devices
- Single part, room temperature curing, flexible material and is optically clear
- Adhesion to metals plastics, ceramics and glass is excellent
- Temperature range of -55°C to +300°C
- Used for strain relieving of components, bonding PCBs into housings, sealing and gasketing electrical devices
- Meets MIL-A-46146B, Group 1 Type II approval

Tempflex Kit – 5145

LOCTITE

- Non-Corrosive sealant adhesive designed for use on corrosive sensitive substrates
- Single part, room temperature curing flexible material, and is also optically clear
- Adhesion to metals, plastics, ceramics and glass is excellent
- Temperature range of -55°C to +300°C
- Used for strain relieving of components, bonding PCBs into housing, sealing and gasketing electrical devices
- Meets MIL-A-46146B, Group II Type 1 approval

General-Purpose Silicone Sealant

VALLANCE

- Multi-purpose acetoxysilicone to BS 5889 Type B
- Suitable for sealing around wash basins, sinks and other sanitary applications
- Ideal for weather sealing around window and door frames
- Contains fungicide
- RTV grade for electrical and industrial uses

adh16

310ml Cartridge	Order Code	Price Each					
		1+	5+	25+	50+	100+	250+
White	702-8234						
Clear	702-8246						
Brown	702-8258						

All-Weather Sealant

VALLANCE

- Unique polymeric sealant
- Sticks to virtually any surface including bitumen and lead and is overpaintable with all paints and stains
- Ability to maintain adhesion on wet surfaces
- Ideal for sealing leaks during rain

Ideal for pointing and sealing around windows and door frames, sealing gutters and roofwork.

Clear	703-0125						
Black	703-0137						

Bostik Matrix Sealant

Bostik

- Single part polyurethane sealant
- Excellent adhesive and sealing properties on a wide range of substrates
- Harder than silicone sealants, yet still flexible
- Non-slumping and non-corrosive
- Paintable
- Suitable for both internal and external use
- Matrix 600FC provides a higher modulus compound, with rubbery, elastic properties

adh148

310ml Cartridge	Order Code	Price Each				
		1+	6+	12+	24+	48+
Matrix 500 Black	721-9325					
Matrix 600FC Black	721-9349					

Applicator Guns

- Designed for use with 305ml and 310ml cartridges of adhesive/sealants (not supplied with gun)

- Lightweight** – Manufactured in a composite plastic with a metal thrust mechanism
- Industrial** – Manufactured from die cast alloy and steel for maximum strength

	Weight	Order Code
Lightweight	270g	108-820
Industrial	520g	146-416

Building Maintenance

Foam Fillers

EVO-STIK

- Adheres to most building materials
- Temperature resistant from -40°C to 100°C
- Water resistant and rot proof
- Cured foam can be cut, sanded, plastered or painted
- Provides good heat/sound insulation
- Expands up to 150% its extruded volume
- Professional expanding filler can be used at any angle

Typical applications include: Sealing around doors, windows, pipes and service ducts. Insulating draughty gaps and water pipes, replacing lagging. Filling wall breakthroughs, holes in woodwork, metalwork and cavities around chased electrical wiring. Flammable contents, do not use near any source of ignition, use in a well ventilated area.
