IP66 – Steel – 'Shureseal'™

Thomas & Betts
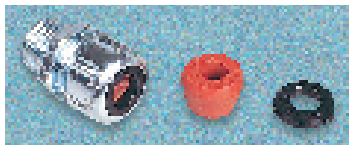

A high strength steel body incorporating a neoprene compression seal and non-corrosive thrust washer which does not age or lose its grip after long use. It is **UL** approved and passes stringent performance tests such as 'driving rain', cutting oil and paraffin splash.

Entry connection M20 mounting thread
Operating temperature +70°C max.

Note: When using Order Code 9524 remove sufficient outer covering of cable to permit conductors to pass through connector body.

STANDARD TYPE — 14mm

TYPE K — 8mm

TYPE B — 30mm

TYPE L — 8mm

TYPE D — 8mm

TYPE P — 8mm
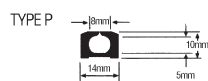

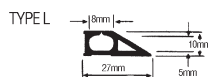

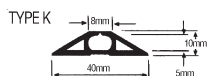

Snap Fit – Low Profile   Snap Top – Micro Profile

- No need to thread cables through profile or use knife to slit moulding
- **Snap Fit** – membrane in base easily opened to allow cable insertion then snaps back into place. Moulding can then be positioned on floor area. Adhesive tape not supplied but can be used if required
- **Snap Top** – membrane in top for cable insertion. Moulding then fixes in position using double-sided adhesive foam tape supplied
- UV stabilised for outdoor use
- Halogen free, low smoke and fume
- Fire retardant to **BS476 Part 7 Class 3, DIN4102 Part 1 and Class B1**

Cable Reel Holders

Bench/Wall Mounting
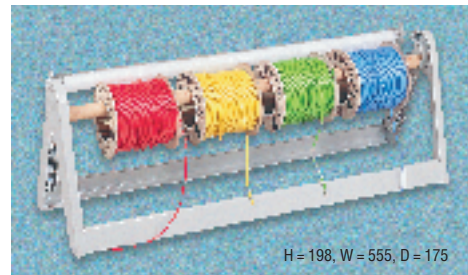

H = 198, W = 555, D = 175

Manufactured from pressed steel with an 18mm wooden cable reel support rod. The reel holder is suitable for either bench or wall mounting. Screw holes are revealed by removing four rubber feet. A sprung foam edged tension bar prevents the cable from reeling out excesses of cable. Supplied with five hardboard reel separators.

Maximum reel diameter   254   Colour   Grey
Maximum combined reel width 520
