## Bluetuff Nitrile Glove with Knitwrist

- Excellent cut and abrasion resistance
- Protection against fats, grease and fuels
- Fleece lining for use in temperatures down to -25°C
- Contoured hand shape for maximum comfort

Typical applications: Handling cables and couplings, heavy engineering work, grinding and cutting, metal fabrication, construction work.

## PVC Dipped General Purpose Gloves

- Lightweight and flexible
- Ideal for general purpose and mechanical handling
- Good level of wet and dry grip
- High level of abrasion resistance
- CE marking - simple design
