

Supply Line Connectors

295 CEJN Quick-Connect Coupling

CEJN 296 Quick-Connect Couplings

- Couplings shut off on disconnection
- Interchange with PCL-type couplings and nipples
- Higher air flow than similar types
- Quality engineered
- Robust construction

Description	Max. Length (mm)	Max. Dia. (mm)	Max. Bar	Mfrs. List No.	Order Code

320 Series Quick-Connect Coupling

320 Quick-Connect Couplings

- Coupling shut off on disconnection
- Extremely high flow
- Low pressure drop
- Euro standard nipple profile
- Quality engineered

Free-Angle Swivel Connectors (7mm Bore)

Free-Angle Connector

- 360° rotation
- Lightweight and streamlined
- Two rotation points can help prevent kinking of the supply hose
- Helps prevent repetitive strain injury (RSI) when used in the correct application
- 45° angled rotation in any direction
- Quality steel construction

For use with pneumatic tools in assembly operations, mechanical joints for robots and vibration isolation. The 707-6253 has a 320 series nipple connector.
