10/100Mbps 5/8/16/24 Port Ethernet Switches

Unmanaged 10/100Mbps switches are an ideal solution to network congestion, expansion and bridging problems.

- All models are auto-negotiating between 10Base-T and 10Base-TX
- Auto-MDI/MDI-X ports
- 'Store and Forward' switching method
- Wire speed filtering/forwarding rates
- Full and half duplex
- CSMA/CD compatible
- Uplink available via any port (16 and 24 port versions)
- Wall mountable (5 and 8 port only)
- 5 and 8 port powered by UK ac adaptors, 16 and 24 are mains powered (100/240, 50/60Hz) IEC320

Contents: Switch, ac adaptor (not 16/24 way) and user guide
