

### Manual Processing Tool for Cable Ties - MK3SP

The MK3SP with its ergonomic design can be used anywhere. A tough and extremely low maintenance metal tool with an adjustable preset tension device for tensioning and automatically cutting HellermannTyton cable ties up to a width of 4.8mm.

MK3SP.

### Manual Processing Tool for Cable Ties - MK7

The MK7 with its ergonomic design can be used anywhere. The casing is made of glass fibre reinforced polyester making it extraordinarily light. The MK7 is a state of the art tool for applying HellermannTyton cable ties up to a width of 4.8mm.

The MK7 has a three level preset tension device for quick adjustment. Further adjustment is possible within each level. MIL approved.

MK7.

MK7HT.

### Manual Processing Tool for Cable Ties - MK7HT

The MK7HT is distinguished from the MK7 mainly by its increased tensioning force. It is particularly suitable for applications that require cable ties to be very tightly applied.

Specifications please see table page 421 in Appendix.
