

## **FIO 357-3722**

P/N 735410-0 is an ELECTRO-TAP, which can connect a 0.50-0.75mm<sup>2</sup>  
> wire into a 0.50-0.75mm<sup>2</sup> lead wire without cutting or stripping. The  
> contacts are tin-plated brass and the housing is a red nylon-6,6.  
The  
> design permits a 105°C maximum operating temperature, a 300-volt  
maximum  
> voltage rating, and a current rating equivalent to the wire being  
> installed.
