

DE-SOLDERING PUMPS

De-soldering pumps provided with safety shield and solder repelling ejector. The popular range of de-soldering tools are available with 1.5 or 3.0mm nozzle.

The anti-static version features carbon impregnated tip and polished aluminum body to provide conductivity from the de-soldering point through to the operator.

- Lightweight
- Spare Nozzles Available

Technical Specifications

DSGP Standard: Cat. No. 594
With standard 3.0mm diameter nozzle tip.

DSGP Micro: Cat. No. 595
With micro 1.5mm diameter nozzle tip.

DSG PRS : Cat. No. 596
With standard 3.0mm diameter nozzle tip.

DSG PRM: Cat. No. 587
With micro 1.5mm diameter nozzle tip.

DSG Anti-Static: Cat. No. 598
With micro 1.5mm diameter nozzle tip.

Dimensions: 190 X 20mmØ.
Spare nozzles supplied in packets of 5.
