

BT EXTENSION TONECALLER 2

Extension Tone Caller II. - High impedance tone caller with 3 - Metre cord for use on PST, (alternatively can be hard wired to screw terminals), incorporates easily accessible thumbwheel volume control and four position switch to give combinations of pitch and cadence of tone, available on sale or rental terms.

The Tone Caller 2 is line powered only.

APPROVAL STATUS

Extension Tone Caller II S/3861/3/N/502392

FIELD OF USE

Extension Tonecaller II - for interior use, up to 82dBA output, table or wall mounted, supplied with plug ended cord for use with any phone socket. Measures approx. 93mm x 93mm x 33mm. Requires 2 No. 6 round-head screws for wall mounting. REN 1.

INSTALLATION/COMMISSIONING

Where several Extension tone caller II's are fitted in the same location, the switch settings should be altered so that they give differing tones.
