

Insultite HFT-A, HFT-B

Features and Benefits

This flexible heat shrink tubing has many excellent properties including fast shrinking, easy handling, good mechanical strength and resistance against chemicals and solvents. It is UL and CSA approved, easy to print on and available in a wide range of colours and internal diameters up to 4 inches (101.6mm).

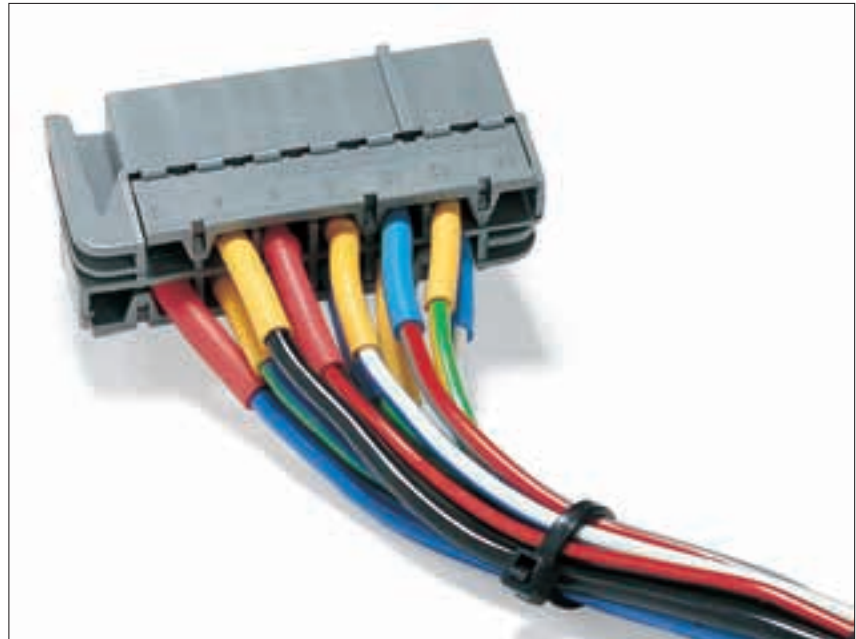

HFT-A is coloured and self extinguishing. HFT-B is transparent and halogen free.

Application

This high performance thin wall tubing is used extensively for electrical and mechanical protection. It is also well proven for sleeve marking to identify wiring circuits. It shrinks uniformly to form a permanent insulation covering.

The transparent version is used for bundling and cable protection where visual inspection is required. It is often used as a see through protective sleeve over cable markers.

HFT-A conforms to major standards used in all Defence industries.

HFT-A, HFT-B

Material Data	
Material	Polyolefin, Cross-linked (POX)
Shrink Ratio	2:1
Longitudinal change after shrinkage	-5% max.
Minimum Shrink Temperature	+100 °C
Operating Temperature	-55 °C to +135 °C , Intermittent +225 °C
Insulation Class	B (VDE 0530)
Dielectric Strength	20 kV/mm according to IEC 60684 P2
Flammability	self-extinguishing (except for transparent)
Specification	DEF STAN 59-97/3, SAE - AMS - DTL-23053 / 5C, CSA, NFF 00-608, UL224, DNV, VG 95343

Technical Table

Type	Type	Size/ Inch	Supplied Ø D	Recov. Ø d	Wall (WT) nom.	Reel Length (m)
