

DISPOSABLE HEEL GROUNDERS

Disposable heel grounders are designed for visitors and temporary staff working within an ESD area.

Each grounder relies on the conductive yarn in the material to create and maintain an electrical contact between ground and body, in order to reach the static dissipation efficiency.

- Easy to use and comfortable to wear
- Economic
- Non Marking
- Surface Resistivity: 10^5 Ohms per M^2
- Material: 100% Polyester with Conductive Coating
- Length: 38cm Width: 1.25cm
- Colour: Yellow & Black

PART: 068-0009

Packaging

(10 straps per sheet)

(10 sheets per bag)

Total - 100 straps per bag

Supplied in outer bag
