

CPU COOLERS FOR PIII AND P4

SANYO DENKI

- Suitable for Intel® Pentium III and Pentium 4 processors
- High reliability and long life (40,000 hours continuous operation at 60°C ambient). 4 Years.
- Superior fan and heat sink design for optimum thermal performance
- 12VDC permanently lubricated dual ball bearing fan and heat sink cooling solution
- 3 Pin Integral lead wire with motherboard connector
- Mounting clips and thermal pads included (item 2 w/o thermal pad)
- Low profile options suitable for 1U applications
- Fan reverse polarity and locked rotor protection
- Low operating noise.

CPU Type/ Socket Type	Dimensions MM	Volts VDC	Current A	Thermal Resistance K/W	Noise dBA @ 1M	Manfs P/N
Celeron/Pentium III FC-PGA 370 850MHz-1.1GHz	60x67x45	12	0.1	0.89	31	109X7612H1126
