

Crescent[®]
BRAND

The wrench that combined
versatility and speed just
got better.

Now the adjustable that does
the work of a socket set
is even easier to use.

COOPER Hand Tools

The revolutionary tool with traditional Crescent[®] brand quality just got better...

It's like 38 sockets and more in a single tool.

The R² RapidRench™ adjustable ratcheting socket wrench, the revolutionary tool with literally thousands of uses around the home and shop, is now it's even better. Improvements include serrations in its precision cast jaws for more holding power and a longer, ergonomically designed co-molded grip for maximum comfort and control. A wider, smooth-acting adjustment dial makes opening and closing the jaws faster and easier.

With its 1/4" to 7/8" jaw capacity, it replaces 38 of the most popular socket sizes and works on many different types of fasteners. It's perfect for typical "around the house" projects like working on a lawnmower or a bicycle. And since the R² RapidRench is infinitely adjustable, it works equally well on both SAE and metric fasteners.

When a task requires many turns of a fastener, the R² RapidRench ratcheting feature makes the job quick and easy.

The unique jaw of the R² RapidRench makes it one of the most versatile tools ever, since it works with so many types of fasteners.

The R² RapidRench works on square bolts, hex bolts, J-bolts, hook eyes, wing nuts, thumb screws, and many, many more.

R² Crescent[®]
RAPIDRENCH™
Adjustable Ratcheting Socket Wrench

Precision cast steel serrated jaws improve gripping power and reduce slippage

- Jaw capacity 1/4" to 7/8" (4.8mm to 22.2mm)

60-tooth ratcheting mechanism requires just a six-degree swing to turn fasteners

Convenient adjustment dial controls jaw operation, providing quick and positive grip on fasteners

Sturdy short-throw thumb switch instantly changes ratchet direction from forward to reverse

Oversized ergonomic co-molded grip features hard inner sleeve for strength with durable rubberized textured outer cushion layer for maximum comfort and control

Crescent® **R² RAPIDRENCH™**

Adjustable Ratcheting Socket Wrench

The Ultimate in Versatility

Never before has there been a tool quite as amazing as the R² RapidRench™ adjustable ratcheting socket wrench. By combining the versatility of a standard adjustable wrench with the speed of a ratcheting socket set, the R² RapidRench has capabilities beyond anything previously available. Add the power of the famous Crescent® brand, and you have an innovative new product that's a proven consumer favorite.

Merchandised to Move!

The R² RapidRench™ adjustable ratcheting socket wrench comes in a durable clamshell package that hangs or stands, depending on retailers' preference. Its unique "TRY ME" design gives customers a real hands-on experience, allowing them to test the grip, open, close, and rotate the jaws, and flip the reversing switch, while at the same time providing the security that retailers demand.

The sturdy and attention getting tray pack holds six clamshell packages securely and looks great from any angle. There's no setup required... just lift off the protective shipping cover and you're ready to sell!
