

Rx Series Diagonal cutters Tip cutter, RX 8149 ergo®

These cutters are made from high performance ball bearing steel, black oxidised. Numerically controlled machine grinding guarantees edge angle accuracy and contact which increases the tools reliability and consistency. Precision induction hardened edges 63-65 HRC. Handles in two component synthetic material and come with return spring. The cutting capacity that is given is for copper wire! This Tip cutter is ideal for use with multi-lead components and for rework.
