

# RHINO™ CONNECT SOFTWARE

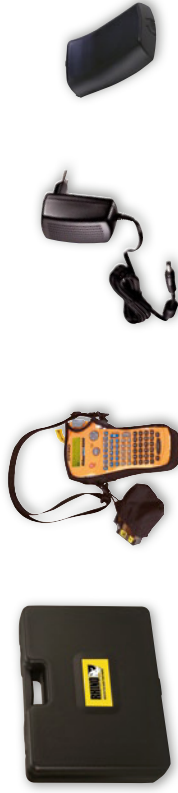

To accelerate your RHINO labelling, use the innovative and easy RHINO CONNECT™ Software and create hundreds (or thousands) of labels before you arrive at the jobsite. To minimise your effort, this integrated software precisely matches the functionality of the RHINO 6000 label printer to print an array of professional labels.

- For use with RHINO 6000 Professional Label Printer range. (see p 55)
- Create labels using the integrated step-by-step wizard.
- Upload / download label files for in-the field and on-demand printing.
- Insert customised graphics, logos, symbols and industry terms.
- Import data from any Windows®-based programme.
- Print labels directly from RHINO CONNECT™ Software.

 † for RHINO 5000 and RHINO 6000

# RHINO™ M1011

This robust embossing classic is ready to take on any heavy-duty labelling job. As the M1011 prints on stainless steel and aluminium tape, it is ideal for any labelling challenge in the factory, outdoors or even on an oil rig. Its built-in hole-punch lets you apply labels with cable ties, nails or screws.

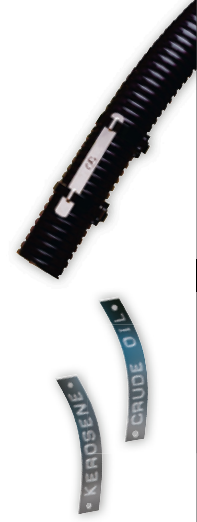

- Excellent character legibility
- Embosses 12 mm wide metal, aluminium or vinyl tapes
- Easy to use tape cutting handle, even on stainless steel
- Integrated hole punch for creating hanging labels
- Cable tie slot for cable marking
- Tape cutting with rounded edges for your safety
- Measuring gauge included to define the length of your leader and trailer
- Reverse Image Wheel to print mirror script labels
- Metal tapes are available in self-adhesive or plain aluminium or steel
- Aluminium and Stainless Steel Tapes have an excellent resistance to weather extremes and high levels of UV light as well as resistant to corrosive marine and industrial environments
- Package includes: Sturdy hard carrying case, M1011 embossing tool, 1 roll 12 mm x 4,90 m aluminium tape without adhesive, 1 roll 12 mm x 6,40 m stainless steel without adhesive, 1 reverse image wheel
