STRENGTH: Plier jaws feature a riveted, interlocking, laminated, stainless steel construction for maximum strength.

SAFETY: Cutting blades and large screwdrivers lock for safe, dependable operation. Exclusive locking system and easy access to implements combine for the ultimate in folding multi-tool safety.

CONVENIENCE: All implements can be quickly accessed with tool folded and closed, or fully opened. The Schrade Tough Tool can be quickly and safely opened and closed with one hand.
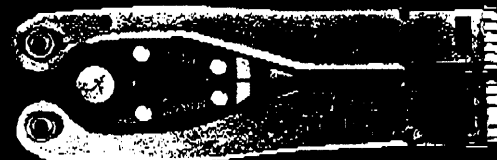

UTILITY: 21 implements/functions are precision formed and rugged enough for any task. Multi-function plier is needlenose, regular plier, wire cutter and vise.

COMFORT: Unique four-sided handle design provides non-slip, non-pinching, gripping surface.

100% Stainless Steel
