

Blue Lithographic Tape - Single Sided

Product Description

Blue Lithographic Tape 1140 is based on clear cellulose film coated with a transparent blue, rubber/resin adhesive. The colour of the tape does not affect the transmission of light through the tape.

Applications

Blue Lithographic Tape 1140 is designed for stripping up lithographic film positives. Its colour enables it to be clearly identified after application, but does not affect the transmission of light through the film.

Features and Benefits

- Biodegradable, no special precautions for waste handling.
- Anti-static, very easy handling and application of tape, no curling effect.
- Hand tearable, does not require any special dispensing equipment.

Technical Performance

Description:	Units:	Value:
Thickness of Tape	micron m	45
Tensile Strength	N/25mm	90
Elongation at break	%	20
Peel Adhesion	N/25mm	5.5
Colour	-	Blue

Storage Details

Special storage detail: Cellulose tapes are more sensitive to humidity on longer term. For storage a real dry environment is advisable. The conditions under which this product is stored affect its performance. Storage should be in dry, well ventilated rooms with a reasonable consistent temperature around 20°C and protected from continuous exposure to direct sunlight.
