

MAGNETIC TAPE STEEL TAPE

Together, Eclipse Magnetics's adhesive-backed steel tape and adhesive backed magnetic tape provide a simple and effective fixing system for labels, signage and secondary glazing.

Magnetic Tape

This strong, durable material has many potential uses and can be cut and applied quickly and easily. We can, of

course, cut this material to size for you. Please enquire for details.

Steel Tape

Available in 30m rolls with widths of 12mm, 20mm and 25mm to directly complement our magnetic tape. It is coated with white plastic on both faces

and high-adhesion 3M adhesive on one face. It quickly makes any surface magnetically receptive and can be cut easily with normal scissors.
