

Oil Spill Separates - Spill Management

Spill Management

Spill Safety kits are specifically designed to contain and adsorb most liquid spills. Our range of kits can enhance spill management and pollution control whilst being extremely cost effective. Spill Safety kits should be chosen according to the nature and size of the potential spillage.

The COSHH regulations specify that when dealing with hazardous spills "Established Emergency Procedures" should be in practice. Selecting the appropriate kit or kits from our

comprehensive range will aid you in meeting these legal requirements and fulfilling Environmental Audit and Risk Assessment Programmes.

On-Site Technical Service JSP's team of Spill Safety Technical Experts are available to carry out site surveys to help identify potential risks and to help recommend appropriate spill management programmes to aid compliance. Please contact UK Sales for further information on surveys on 01993 826050.

Code	Description	Carton Qty	Carton Wt (kg)	Dimension CBSQ ²	W/S
------	-------------	------------	----------------	-----------------------------	-----

a. Oil Quatrosorb - 54cm x 45cm x 15cm

Can be used as a sock straight from the box, as a pillow when unfolded once, as a roll or pad when fully opened out.

PRQ630-160-100	Oil Quatrosorb - 54cm x 45cm x 15cm	1	2.65	54cm x 45cm x 15cm	
----------------	-------------------------------------	---	------	--------------------	--

b. Oil Booms Pack 4 - 20cm x 3m

Designed for applications where there is a need to remove hydrocarbons from water. The oil booms have metal clips to link them together with an overlap. They will float indefinitely when deployed on marinas, docklands, rivers, lakes or any area of water.

PBQ340-400-000	Oil Booms Pack 4 - 20cm x 3m	1	23	70cm x 70cm ø	
----------------	------------------------------	---	----	---------------	--

c. Oil Booms Pack 4 - 12cm x 3m

Designed to remove oil from water. The booms have metal clips to link them together with an overlap. They will float indefinitely when deployed on marinas, docklands, rivers, lakes or any area of water.

PBQ350-400-000	Oil Booms Pack 4 - 12cm x 3m	1	9	46cm x 60cm ø	
----------------	------------------------------	---	---	---------------	--

d. Oil Socks Pack 25 - 0.08cm x 1.2m

Are a clean effective method of adsorbing oil leaks around machinery.

PSQ331-300-000	Oil Socks Pack 25 - 0.08cm x 1.2m	1	8	43cm x 45cm x 59cm	
----------------	-----------------------------------	---	---	--------------------	--

e. Oil Pillow Pack 10 - 40cm x 53cm

Spill safety oil pillows are useful for adsorbing oil in confined areas such as sumps, bilges and tanks. Large capacity for bigger spills.

PQO321-010-100	Oil Pillow Pack 10 - 40cm x 53cm	1	6	43cm x 45cm x 59cm	
----------------	----------------------------------	---	---	--------------------	--

f. Oil Roll Pack 2 48cm x 44m

Oil roll will float on water to remove hydrocarbons from the surface. Required length can be selected from roll to suit applications. Particularly useful outdoors if raining.

PRQ360-100-000	Oil Roll Pack 2 48cm x 44m	-	-	-	
----------------	----------------------------	---	---	---	--

g. Oil Sheets Pack 200 - 48cm x 43cm

200 to a pack ensures that oil sheets cover a greater surface area, ideal for shallow spills.

PHQ002-910-000	Oil Sheets Pack 200 - 48cm x 43cm	1	8	43cm x 45cm x 59cm	
----------------	-----------------------------------	---	---	--------------------	--

h. Oil Pads Pack 100 - 48cm x 43cm

Absorbent pads are made from Meltblown polypropylene. Economical yet effective, these pads are conveniently packaged for ease of use and quick response to clean up spillages.

PJO002-500-000	Oil Pads Pack 100 - 48cm x 43cm	-	-	-	
----------------	---------------------------------	---	---	---	--

i. Oil Pillow Pack 10 - 30cm x 35cm

Spill safety oil pillows are useful for adsorbing oil in confined areas such as sumps, bilges and tanks.

PQO311-010-100	Oil Pillow Pack 10 - 30cm x 35cm	1	4	43cm x 45cm x 59cm	
----------------	----------------------------------	---	---	--------------------	--

j. Oil Roll Pack 1 - 97cm x 44m

Oil roll will float on water to remove oils from the surface. Can be cut to length to suit the application. Particularly useful outdoors if raining.

PRQ370-100-000	Oil Roll Pack 1 - 97cm x 44m	1	9	77cm x 45cm x 59cm	
----------------	------------------------------	---	---	--------------------	--
