

2-Part Labelling System

Laser Labels

Information

The Silver Fox Legend[®] 2-part labelling system label fits inside our 2-part labelling system tube which acts as a carrier and also protects the ident. The tail of the label is pulled through the tube then torn or cut after insertion leaving the label in the tube.

Also available as a thermal option for our DTP-1 thermal printer.

Benefits

- Print up to 75 labels in 15 seconds!
- Print using a standard office laser printer
- Use a colour laser printer for colour-coded printing
- Choice of 3 lengths, 20mm (0.788"), 30mm (1.182") and 50mm (1.970").

Technical Data

Material:	Polyester
Tested temperature range:	Up to 85°C (185°F)
RoHS:	RoHS compliant
Printing:	Laser printers only

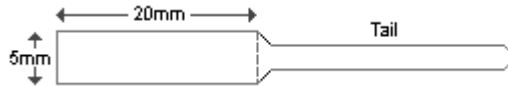

Product Testing

■ **MIL-STD-202G Method 108A**
Elevated Temperature 85°C (185°F)

Refer to Product Testing information sheet for more details

Order Code Example

Example order code: L75/20LW

L = Legend[®] label
75 = Qty of labels on sheet
20 = Length of label (mm)
L = Laser printer
W = White
