Key features

- 5 button wireless mouse with laser sensor for extraordinary accuracy and enhanced surface tracking
- Laser sensor technology registers more surface detail, enabling you to use the mouse on more surfaces than a standard optical mouse
- Lower power consumption compared to an optical mouse: extends the battery life at least 200%
- Including cradle for storing and recharging the mouse, even when the PC is turned off
- Ergonomic design with rubber top coating and two side buttons for easy navigation
- Suitable for USB and PS/2

14519 - Wireless Laser Mouse MI-7500X UK

With over 20 years of experience as the only independent manufacturer of affordable technological quality computer peripherals, Trust offers a complete and innovative assortment of 250 products. Each product is carefully developed with the focus on functionality and users comfort; in this process price in proportion to quality is of importance. The assortment is divided into four marketing concepts namely Portable Solutions, Bluetooth Solutions, Internet Telephony Solutions and MP3 Solutions and into twelve sub brands. This classifies the complete assortment in orderly product groups.

Trust International B.V. (www.trust.com) is active in 30 European countries. The product range is available through all the national and European wide retailers and resellers. More than 230 employees are working at the offices in the Netherlands, Germany, France, Spain, Italy, United Kingdom, Poland, Portugal, Czech Republic, Hungary, Austria and Switzerland. Trust offers complete services to both its partners and consumers.
