

Paper Rolls

NCR produces a complete line of thermal, conventional single-ply and carbonless multiply paper rolls. Our products are designed to deliver high performance and compatibility in all common transaction printers while minimizing the user's total cost of ownership.

NCR has developed POS consumables that facilitate effective communication with consumers while maximizing machine availability.

Consistent High Quality

Manufacturing processes are documented and best practices are utilized throughout every NCR plant. NCR's paper rolls are manufactured under ISO Certified 9001:2000 standards.

Made To Exacting Specifications

NCR matches product, process and procurement specifications for every product prior to market introduction.

Paper Purchased From Qualified Suppliers Only

Experience has shown that even commodity papers vary in characteristics from one source to another.

Paper Purchased Based on Documented Specifications

Field experience and lab testing have proven the relationship between printer performance and caliper, stiffness, smoothness, sensitivity and thermal coating attributes.

Thermal Rolls Guaranteed Not To Cause Printhead Failures

Extensive laboratory testing is required on every thermal paper grade (printed or blank) prior to market release.

Breadth of Offer

NCR carries a complete line of paper products for all OEM machine manufacturers.

Worldwide Capabilities

NCR has 12 manufacturing locations around the world to meet your paper roll needs.
