3M Chemical Sorbents

For hazardous liquid spills

3M CHEMICAL SORBENTS & HAZARDOUS SPILL RESPONSE KITS FOR EMERGENCY SPILL CONTROL

It's unavoidable. Accidents do happen - and when you're working with hazardous liquids, you need to act quickly, safely and effectively should a spill occur.

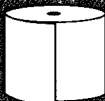

3M Chemical Sorbents are available in a wide range of formats. Absorption rates are exceptionally high, enabling efficient management of spills.

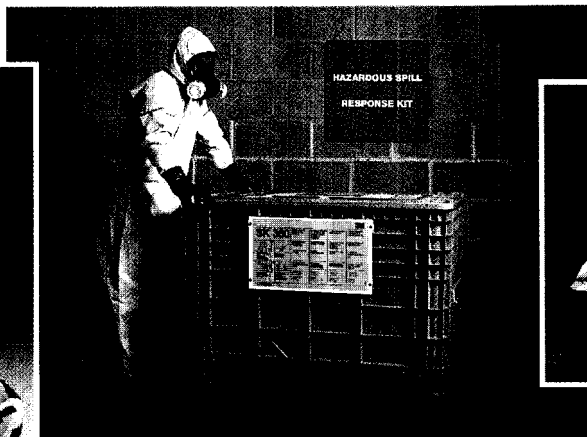

3M Spill Kits feature the range of high performance 3M Chemical Sorbents which are suitable for absorbing and handling a wide range of hazardous liquids. They cater for many aspects of hazardous spillage control **promptly and efficiently.**

THE BENEFITS

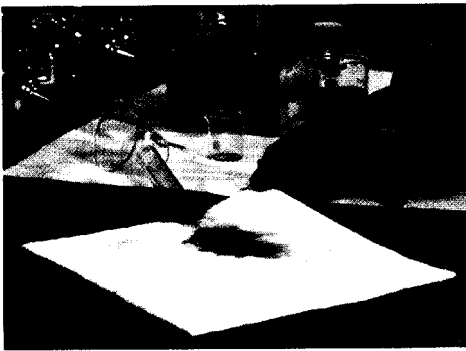

- Immediate response to chemical spillages
- Fast and effective containment and clean up
- Suitable for use with most chemicals
- Convenient, thoughtfully designed kits
- Promotes safety on the site
- Easy to dispose of

THE 3M HAZARDOUS SPILL RESPONSE KIT RANGE

HSRK 360	HSRK 210	HSRK 75	HSRK 26	HSRK 5	
					
360L	210L	75L	26L	5L	Absorption Capacity
L120 x W81 x H97	L99 x W66 x H79	L79 x W51 x H33	40ø x 63	D7 x W28 x H40	Dimensions (cm)
75kg	45kg	14kg	7.7kg	0.74kg	Weight
400	150	100	10	10	
30	20	12	5	1	
30	14	8	5	0	
2	0	0	0	0	
1	2	0	0	0	
20	10	5	2	1	
1	1	0	0	0	
1	1	0	0	0	
1	1	1	1	1	

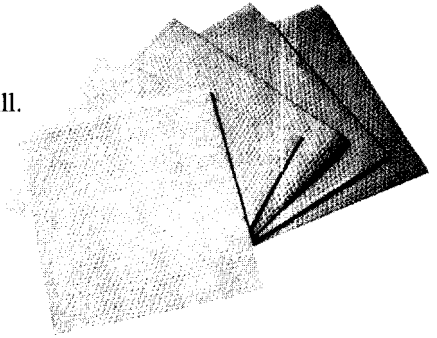

3M CHEMICAL SORBENT SHEETS

Packed in a handy 50 sheet dispenser, 3M Chemical Sorbent Sheets are ideal for smaller spills - or for a final clean-up after a larger spill.

Part No: P110
 Dimensions: 28cm x 33cm x 5mm
 Absorbency: 0.25 ltr/Sheet
 Case Quantity: 4 dispensers x 50 sheets
 Dispenser

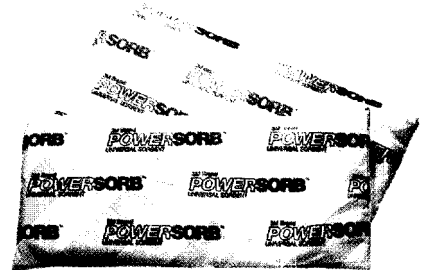

3M CHEMICAL SORBENT PILLOWS

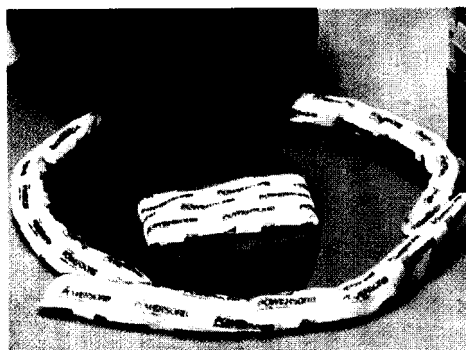

Small and lightweight, the 3M Chemical Sorbent Pillows can be rapidly deployed at the scene of a spill. The outer cover is tear resistant and they have a high liquid holding capacity.

Part No: P300
 Absorbency: 2 ltr/Pillow
 Dimensions: 23cm x 38cm
 Case Quantities: 16 Pillows per case

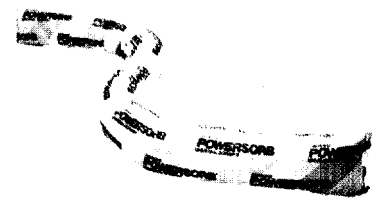

3M CHEMICAL SORBENT MINIBOOMS

Ideal for immediate containment of hazardous spills.

Part No: P200
 Absorbency: 3.7 ltr/Boom
 Dimensions: 7.5cmø x 1.2m
 Case Quantities: 12 Minibooms per case

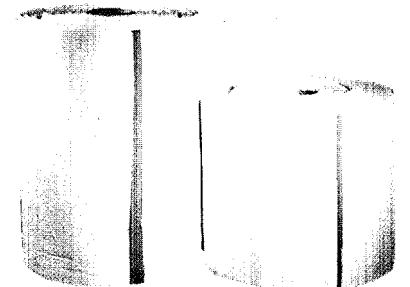

* Longer length minibooms are available on request

3M CHEMICAL SORBENT ROLLS

Rolls have many applications. They can be used to give large area coverage, but are flexible enough to be customised to a wide range of convenient sizes.

Part No: P130 P190
 Absorbency: 25 ltr/roll 36 ltr/Roll
 Dimensions: (P130) 35cm x 30m x 5mm
 (P190) 48cm x 30m x 5mm

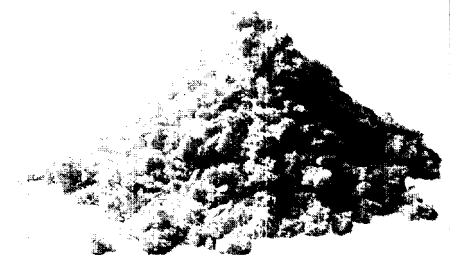

Case Quantities: 2 Rolls per case

3M CHEMICAL SORBENT PARTICULATE

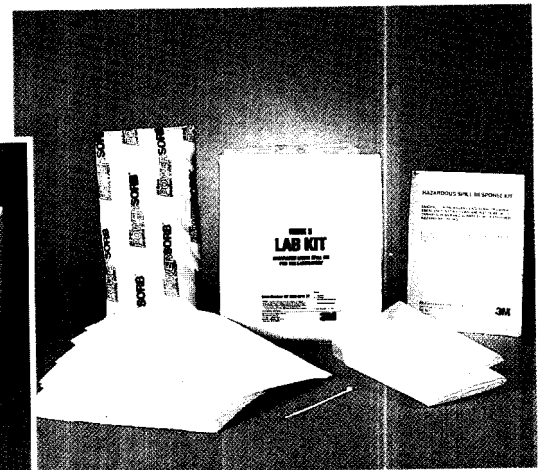

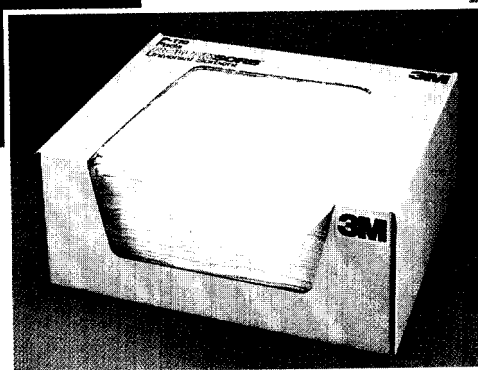

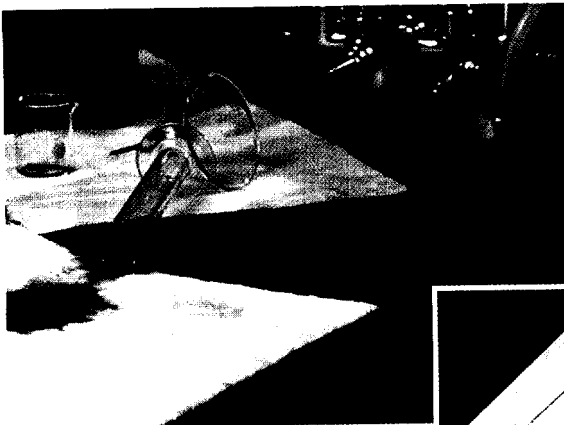

3M Chemical Sorbent is also available in particulate form for special applications.

Part No.: P500
 Case Absorbency: 5.4kg/case

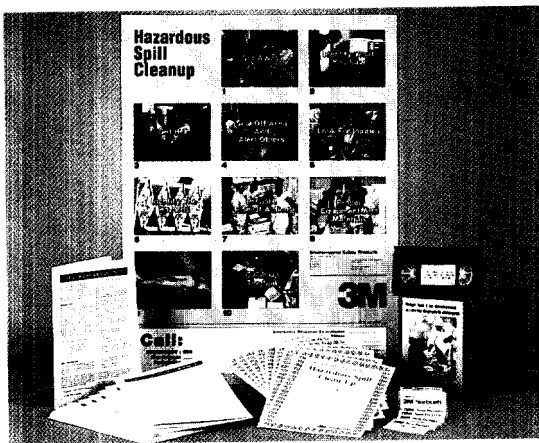

IN THE LABORATORY

In the laboratory, protection of both employees and equipment is vital. 3M Spill Kits and Chemical Sorbents can be deployed wherever hazardous liquids are in use. In the event of a spill, the kits can be used to contain and clean up the hazardous liquid promptly and efficiently.

3M HAZARDOUS SPILL CLEAN-UP TRAINING PROGRAMME

The package includes:

- Spill Clean-Up Training Video
- Handy pocket information cards
- Study Guides
- Certificates of completion
- Poster - to help raise awareness in the workplace

The COSHH Codes of Practice specify that 'established emergency procedures' should be in force, together with suitable personal protective equipment to contain and dispose of hazardous spills.

The importance of such emergency procedures should not be underestimated - 3M have put together a comprehensive **Hazardous Spill Clean-Up Training Programme**. The programme is presented in a clear, well thought out manner and will help you to act quickly and sensibly in the event of a hazardous spill.

The programme includes a Training Video which highlights the importance of

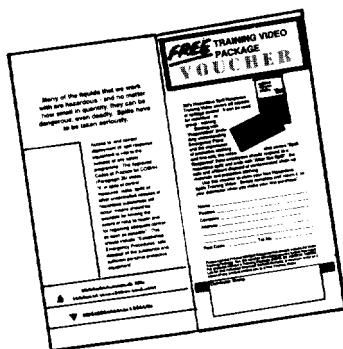

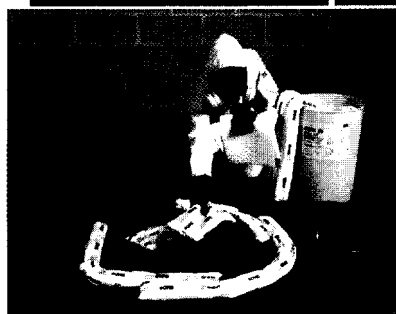

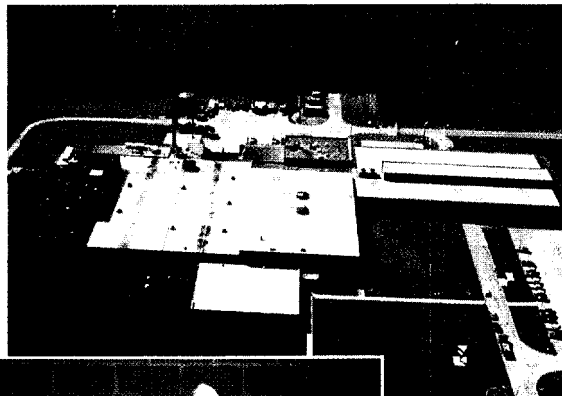

- **Preparation** - full understanding of emergency plans in advance, selection of protective clothing etc.
- **Spill Response** - how your employees should respond to a spill.
- **After the Spill** - including safe disposal and decontamination.

3M HAZARDOUS SPILL RESPONSE SITE AUDIT

Spills of hazardous liquids have to be taken seriously, no matter how small. Access to, and correct deployment of spill response equipment is vital to the success of any safety programme - a programme that can only be arrived at via **careful planning and management**.

3M's spill control expertise extends beyond product technology to encompass many elements of site auditing.

The 3M Hazardous Spill Response Audit Pack contains useful information and helpful advice on how to assess hazards and deal with potentially dangerous spills, and it's free. It contains an Audit Check List for your own company, plus a voucher for a free training video 'Handling Hazardous Spills'.

For more information on the Audit Pack, or if you are unsure about your responsibilities or the requirements of legislation, simply call 3M on Freephone 0800 212490.

3M can also help with your own site audits. Please call for more information on this service.

Available from:

Warning: 3M Sorbent products take on the characteristics of the liquid they absorb. Take adequate precautions when handling or storing hazardous/inflammable materials and wear appropriate personal protective equipment. Dispose of only in accordance with local and national regulations. The buyer shall determine the suitability of the products both in terms of 'safety' and 'fitness for application' and shall not rely upon any representations made by or on behalf of 3M. All dimensions and capacities quoted are approximate.
