GLASS FIBRE SCRATCH BRUSHES

Glass fibre brushes are ideal for accurate and rapid cleaning of all metal objects. They can also be used to prepare delicate surfaces for the application of adhesives or paint. Other uses include the erasing of pencil marks off wood or removing non-absorbent ink on drawings, cleaning off paint and lacquer, and preparing surfaces for soldering (e.g. printed circuit boards).

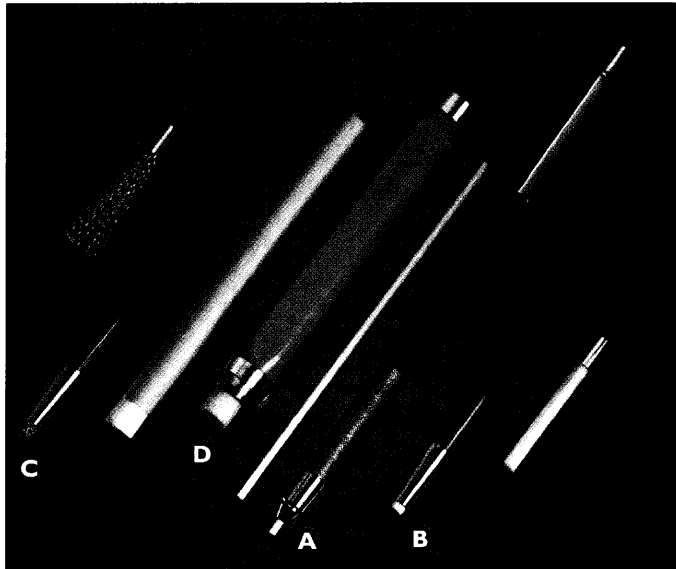

other uses :

cleans cutlery - file and saw teeth - spark plugs - battery terminals - contact breaker points - fishing tackle - bicycle parts - clock mechanisms - furniture fittings - nuts and bolts - pipe threads - sewing machine parts - drills, milling tools, or cutters - typewriter keys - pen knives - ceramic objects.

deburrs metal parts or threads.

abrades rubber tyres for patching - plastic or smooth objects prior to sticking them together.

polishes and burnishes metal like brass, silver, copper or chrome.

SLIM CLUTCH TYPE SCRATCH BRUSH (2MM)

Same applications as larger brushes but for use on smaller and less accessible areas.

- A** 2mm Scratch brush BU2137
- Pack of 3 refills BU2138/3
- Pack of 12 refills BU2138/12

PROPELLING PENCIL SCRATCH BRUSH (4MM)

Propelling pencil action exposes more or less of the glass fibres. The shorter the fibres showing, the more abrasive the action. Brass & Steel refills also available.

- B** Pencil with 1 glass fibre insert BU1019/1
- C** Pencil with 1 brass insert BU1020/1

Refills	Pack of 3	Pack of 10	Box of 24
Glass fibre	BU1019/2/3	BU1019/2/10	BU1019/2/24
Brass	BU1020/2/3	BU1020/2/10	BU1020/2/24
Steel	BU1021/2/3	BU1021/2/10	BU1021/2/24

WIDE PATTERN SCRATCH BRUSH (8MM)

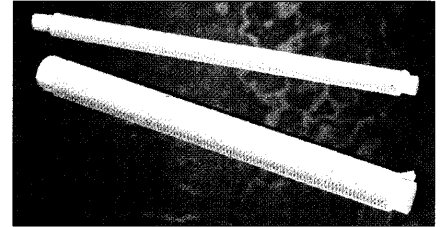

Clutch type action for ease of use. Body length 105mm.

- D** 8mm scratch brush BU2240
- 8mm refill BU2241

STRING BOUND GLASS BRUSHES

These 180mm long brushes are for use on larger areas. To expose more fibres, simply pull back the string.

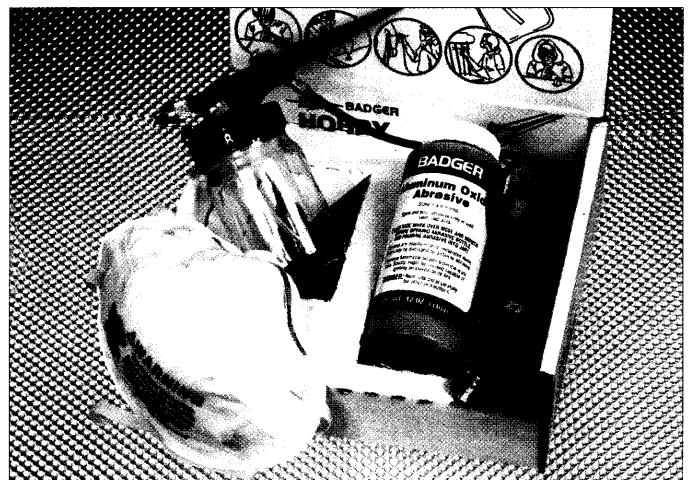

We recommend that you use insulation tape around brush to avoid getting any glass fibre splinters. Choice of 2 diameters.

- 10mm BU1022/10
- 17mm BU1022/17

BADGER 260 SERIES HOBBY ABRASIVE GUN

The perfect tool for the do-it-yourself and the hobbyist. This abrasive gun can make any refinishing project quicker and easier. The Model 260 leaves the surface ready for refinishing. Removing old paint, rust and corrosion from a wide variety of items is a breeze. With the Hobby Abrasive Gun, you can etch designs or cut monograms on both wood and glass. An ideal tool for prepping metal surfaces, jewellery refurbishing, stripping or antiquing furniture and much more. Curved or hard to reach areas can be cleaned with ease.
