

DUAL Technology System Drives Pests Out Of Your Home!

MAGNETO-SONIC[®]
DUAL
TECHNOLOGY

DUAL TECHNOLOGY UNIT

How many units do I need to protect my home?

- A minimum of one unit per home.
- Additional units are recommended for multiple floor buildings.
Example: two story building, purchase two units.
- For maximum protection within the living area, Lentek recommends purchasing additional Dual-Technology units or Lentek's Ultrasonic Pest Repellers.

EASY SETUP:

1. Install in a centrally located position in home, or place where pests are being seen.
2. Turn on Ultrasonic Frequency switch for effective dual technology.
3. If purchasing additional units or Lentek Ultrasonic booster units, place around the home in separate rooms or use to increase ultrasonic frequency within rooms where main unit is placed.

FOR INDOOR USE ONLY
World Wide Patent Pending

PEST-X produces ultrasonic sound above the hearing range of common domestic pets such as Dogs, Cats, Snakes and Birds.

- Turn the ultrasonic switch to off if installed in a room with Rodent Pets like Hamsters, Mice, Rabbits or Tarantula Pets.

WILL NOT AFFECT ELECTRONIC APPLIANCES such as computers, T.V.'s, etc.

Provides the Ultimate Answer to Pest Problems in:

- Homes • Apartments
- Garages • Offices
- Warehouses • Restaurants
- Anywhere Pests are a Problem!
