### Naturally, the CH20M system also shows its detailed perfection in the peripheral interface.

If you are taking into consideration design options, processing, usability, reliability and security, then pin headers and connectors are just as critical in the real world as the entire system.

These markers are the top of their class in all fields:

- **100% non-interchangeable** Together with the captive, unique "Auto-Set" encoding, the uniquely detectable markers on the plug connection and in the front ensure misconnection-proof assignment of the connections. Both markers can be printed as cards in a PrintJet and then permanently snapped on.
- **100% intuitive** Quick and easy operation by means of an integrated colour-coded release lever with grip tab and including a screwdriver pocket.

### General ordering data

Order No.	<a href="#">1082540000</a>
Type	ESG 6.6/20 BHZ 5.00/04
Version	Device markers, MultiCard, 20 x 6.6 mm, Polyamide 66
EAN	4032248845439
Qty.	200 pc(s).
