

10-280, 10-380 & 10-400 Knives

STANLEY

Ergonomically designed for comfort and cutting power cartridge knives. The 18mm blade is automatically locked in the selected position for safe, positive cutting. After removing used blade from nose of cutter, the new blade automatically feeds into position when the slider is retracted. Model 21-4403 can store 2 standard blades whilst 21-4404 and 21-4405 can store upto 6 standard blades.
