

Compact Hand Pump

This hydraulic power pack allows the whole of the pull through range of punches and dies to be utilised. The unit is available in four formats: a kit of hole cutters and adaptors for sizes 12.5 to 35mm, a similar kit for sizes 3/4" to 1 1/4", a kit for producing 25 way 'D' connector apertures and a basic kit of gun and adaptors. The gun operates on the hydraulic principle, pressure being generated from the hand operated grip.

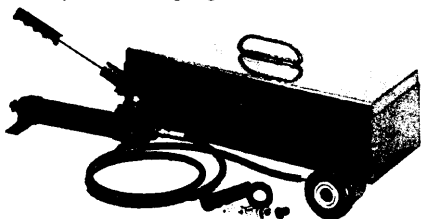

Type	Order Code	
Full Kit - 12.5 - 35mm	945-0000	New
Full Kit - 3/4" - 1 1/4"	948-0000	
25 Way 'D' Kit	946-0000	
Gun and Adaptor Kit	947-0000	

Hydraulic Power Pack

222-434

The cutting principle is essentially the same as the hole cutters, but this power pack complete with pump, cylinder and 1.8 metres of high pressure hose, exerts a force capable of cutting larger holes in thicker materials.

Will cut up to 3mm mild steel and up to 4mm aluminium and similar materials.

68mm x 68mm	943-0020
92mm x 92mm	943-0030

Guillotine

This sturdy, bench mounted, hand operated guillotine is capable of shearing 1.6mm mild steel or 3.2mm half-hard aluminium, up to a width of 508mm (20"). It can also cut sheet plastics, laminates and PCB materials. The guillotine is fully guarded, with a spring loaded work clamp holding the material in position and a built in rule to assist precision cutting. The cutting blade is reversible.

Product Specification	
Width:	696mm
Depth:	430mm
Height:	337mm
Handle Length:	800mm
Weight:	95 kg

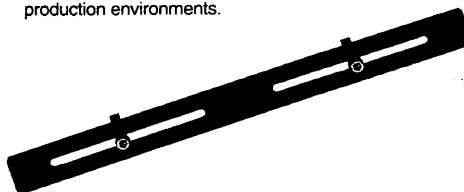

Optional accessories are available.

Type	Order Code
Guillotine	955-0000

Front Stop

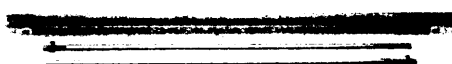

This stop enables blank conformity which is vital in production environments.

Type	Order Code
Front Stop	956-0010

Back Stop

Allows material to be fed from the front to a set depth.

Type	Order Code
Back Stop	956-0020
