

BENCH MOUNTED ADAPTOR TOOL

TYPE DBMT 1

Basic model with quick closing operation.

A highly flexible pneumatic compression unit controlled by foot pedal, it is designed to take the majority of standard hand crimping tools or cutters. It can be used for pre-insulated or uninsulated terminals and can cut cable up to 50 sq mm. An air compressor can be supplied if required and the operating air pressure is 40 to 100 lbs depending on the type of crimping line. The air line supply fitting is 1/4" BSP male.

GENERAL PURPOSE PVC TAPES

General purpose non-migratory plasticized insulation tape supplied in widths of 19mm and 25mm with all colours as detailed.
