

### EURO shank, 91

These blades fit AEG, Atlas Copco, Bosch, DeWalt, Hitachi, Makita, Metabo, Milwaukee and similar machines.

Type of blades: **HCS**: Carbon Steel, is suitable for cutting through wood, plastic and other soft materials. **HSS**: High Speed is long lasting and will cut through most materials. **BM**: Bi-Metal combines the cutting performance of HSS with the flexibility of carbon steel. The saw blades are shatterproof and suitable for cutting through all types of material. **TC**: Tungsten Carbide, for ceramics, marble, glass, stainless steel. **HM** : Hard Metal

A new progressive toothing has been introduced on our universal progressive blade. With fine toothing near the top of the shank, good when cutting in thin material, progressively becoming coarser further down the shank for effective cutting of thicker material. The design allows the blade to work well in most work situations.

**2PW** = Progressor for Wood

**3PM** = Progressor for Metal

**4PWM** = Progressor for Wood and Metal

**-5P** = 5 blades packed on informative card. **-1P** = 1 blade packed on informative card

\* reversed teeth
